Dr. Robin White
Great Oaks Institute of Technology & Career Development
3254 E. Kemper Road
Cincinnati, OH 45241-1581

Dear Robin,

Part of the mission of the Sharonville Chamber of Commerce is to provide expert business connections to our members along with education and training. It is our belief the Great Oaks Institute of Technology and Career Development brings these values to the local communities.

Since our many business employees come from the 36 school districts in southwest Ohio, we feel it is necessary and essential to endorse the Great Oaks Renewal Tax Levy which is on the ballot this November.

The educational and vocational training the students receive on the four Great Oak campuses are what helps make a well rounded employee an asset to a business. In addition to being trained for future career opportunities, 46% of the students immediately move on to college level learning.

The dedication of the Great Oaks staff and administration is part of the secret ingredient which makes Great Oaks so valuable to these students in our area.

This tax levy is not asking for new funds. It is asking for a *renewal* of the current levy which will be in place for the next ten years. Great Oaks has managed to grow and educate while maintaining the fiscal responsibility of managing their budget.

These are some of the reasons the Sharonville Chamber of Commerce endorses this renewable tax levy.

Robin, please tell your employees, business associates, and friends that the Sharonville Chamber supports the future of Great Oaks. We are proud and pleased to have helped our future leaders and look forward to continuing this effort.

Sincerely yours,

Rich Arnold
President
