In late 2020, when the Chamber was planning its first extended leadership program, I was asked if I myself, or my colleague, Hollie, would be interested in participating. Due to several date conflicts, I was unable to commit myself to the program. We are a two person office and had to consider what it would look like to have 50% out of the office unavailable once a month for nine months and if the costs would be justified. When I learned that Bob Pautke was facilitating the program, I knew it was going to be very successful. I have known Bob for a long time. When I was transitioning into my current role with Edward Jones eight years ago, Bob was instrumental in giving me the advice I needed to propel my practice to where it is today. As for the cost, it is worth every penny and more. As for Hollie, it was a game changer. We have taken the branch to new heights this year and the future is looking fantastic. I would highly recommend the LEAD Northern Cincinnati Program to anyone who wants to increase their leadership skills, increase productivity, and take their organization to the next level.

## The ROI is far reaching:

- Enhances personal and professional leadership and team building skills.
- Encourages a corporate culture of empowering employees.
- Increases retention of employees and prepares leaders for new assignments.
- Builds working relationships with regional business and community leaders.
- Increases the number of effective leaders in an organization and frees up time for existing leaders to pursue growing the business.

Our strengths-based approach enables individuals to reach their greatest potential, and organizations to achieve their best results by developing and applying our natural strengths and purpose, then empowering others in organizations including families, businesses, non-profits and communities.

We will explore why leadership is much more than a position or job title. Let us help your organization develop ethical, effective leaders at every level, from interns to CEOs.

Our facilitator, Bob Pautke, is a well-known and respected facilitator, offering presentations for both For-Profit and Non-Profit organizations. He is recognized as an expert in Leadership Development.
